IMPORTANT NOTE ABOUT NATURAL WOVEN MATERIALS

Our custom crafted Woven Wood shades are uniquely constructed from natural bamboo, reeds, jutes, rattan, grasses and woods. Natural grass materials are hand tied and braided with expert care.

Over time, some patterns may turn slightly darker or lighter in color, depending on the material. Variations in stain, pattern irregularities and knots are unique characteristics that contribute to the natural beauty of the shade.

It is common for woven shades to minimally stretch in length over time due to the natural fibers of the material and characteristics of some weaves. The average stretching amount is approximately 1/2" for every 3 feet of shade length plus or minus 1/4".

Due to the woven construction of our shades, yarns may have shifted during shipping. This shifting may cause a slight shortening of height or uneven edges.

Please read below for quick and easy remedies.

Height: If after installation you find your shade is slightly shorter than the ordered height, simply grasp the bottom of the shade and gently pull to stretch the product to full height.

Uneven Edges: Lightly tap edge of shade with a flat surface (ruler, etc.) until even.

Oxford House, Inc (“we” or “Oxford House”) warrant to its direct retail customer that our finished blinds and shades will be free from defects in materials and workmanship for a period of 10 years from the date of purchase (or such shorter period as is provided below), provided such products were properly installed and maintained as per our installation instructions and not modified in any way. We will repair or replace, at our option, a defective product after it is returned to Oxford House, Inc. Such repair or replacement shall be the customer’s sole remedy.

Natural materials, especially wood, can have a tendency to warp when exposed to the elements. This is considered normal wear and tear and is not covered by this warranty.

Repairs and replacements will be made with like or similar parts or products. We will do our best to match the repair or replacement with similar parts or products, but colors may vary and we cannot guarantee an exact match from previous purchases or to other non-defective existing products, even if they are in or near the same opening. If the product, part/component, or operating system has been discontinued, we will repair or replace only the defective product with the most similar alternative available at the time of repair or replacement.
