Replacement instructions for wand tilt mechanism

- A) Remove blind from window.
- B) Remove end caps that might be on the ends of the headrail.
- C) Slide the metal tilt rod that goes through the tilter away from the mechanism. **DO NOT TAKE IT ALL THE WAY OUT.**
- D) Remove old tilter by gently spreading the headrail apart and snapping the broken tilter out.
- E) Insert the new tilter inside the headrail and snap it in place as shown in the picture.
- F) Slide the tilt rod back inside the new tilt mechanism, making sure to align the shaft with the hole in the tilter.
- G) Reattach the end caps.
- H) Attach tilt wand.
- I) Rehang blind.
