## Kensington Woven Woods Features and Benefits

- n Kensington Woven Woods are fashioned from natural reeds, fibers and bamboo to help create both formal and informal settings for family rooms, studies, kitchens, and bathrooms.
- n Every shade has its own distinctive texture, grain, color, and pattern that can change the mood of the room from exotic to casual, formal, or rustic.
- n Reeds are woven together, retaining their matchless natural textures and colors, amplifying a handcrafted look while adding character and charm to the ambience of any room.
- n These stylish, affordable shades are operated with a proven yet simple pulley system which is both safe and allows for the shade to be fixed at any level desired.
- n Numerous options including edge binding and liners are available to help truly customize your shades, which will accent any home décor.
- n Kensington Woven Woods will provide years of trouble-free performance when properly maintained. In addition, shades are all covered by a limited lifetime warranty.
- n Unique operable liner option allows for added functionality and privacy options.

FABRIC SPECIFICATION

Kensington Woven Woods are created from natural products such as reeds, bamboo, grasses, and wood, that will age beautifully over time. It is possible that some patterns may grow slightly lighter or darker in color, depending on the fabric pattern. Variations in paint and stain, minor cracks, slight pattern irregularities and knots are all enhancements that add to the natural beauty and character of your shade.

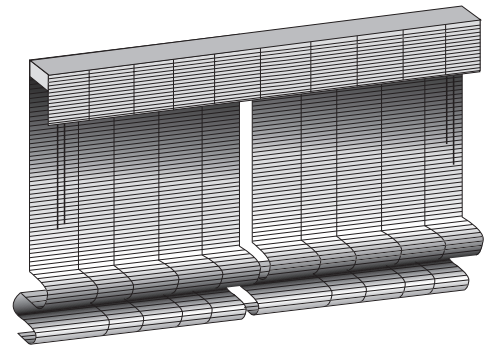

FEATURES AND OPTIONS

HARDWARE OPTIONS\*

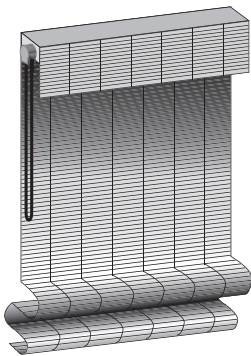

**Classic Roman:**

Hangs flat when lowered and waterfall folds behind the shade neatly and evenly when raised.

**Two-on-One Headrail:**

Perfect for large windows, this style allows you to have two shades on the same headrail for independent control and more practicality.

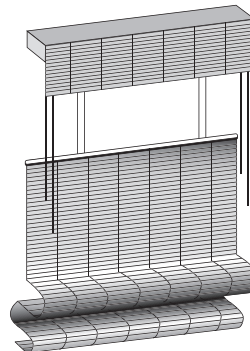

**Roman with Roller Clutch:**

Looks just like the Classic Roman, but it has a continuous cord clutch mechanism for one easy control that locks automatically at the desired height.

Note: This system is a clutch system operated by a spear retainer and does not operate on a roller tube.

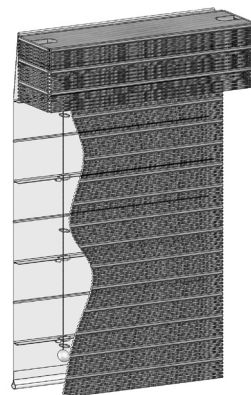

Minimum width 22"

**Top-Down / Bottom-Up:**

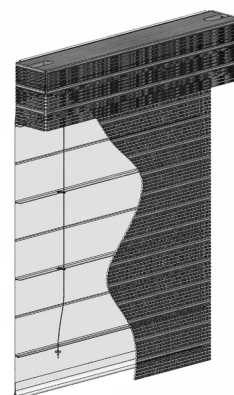

Versatile, this style is perfect for those places where privacy is needed while still preserving a clear view to the outside and allowing natural light into the room.

Not available on multi-unit headrails.

**Fixed Liner:**

Standard Woven Wood shade with a fixed liner upgrade for consistent filtering or blocking of light.

**Operable Liner:**

Standard Woven Wood shade accompanied by an independently operated liner.

Only available on standard control.

\*Please refer to price grids for surcharge information.

### Woven Wood Signature Finish Edge Binding Option\*

The Kensington Woven Wood signature finish edge binding options are fashionable and fun. These fabric tapes will add a more tailored and complete look to your Woven Woods Shades and are available in both Deluxe and Standard widths.

A designer's favorite, our signature finish edge binding is offered in fifteen colors that coordinate with your product look and overall décor. Please refer to your Kensington sample book to see samples of all signature finish edge binding options.

n Standard signature finish edge binding option is equivalent to 1" of binding on the front of the fabric and 1" of binding on the back of the shade.

\*Please refer to price grids for surcharge information.

\*Some fabrics are not available with the signature finish edge binding option. Please refer to the "Collections" section of the price list on page 3 for more details.

#### Standard Hardware Includes:

- n Installation Instructions
- n Cord cleat
- n Mounting brackets
- n Clutch System includes mounting screws

#### No Charge Options (must request on order):

- n Extension brackets
- n Hold down brackets
- n Returns for outside mounts

## FABRIC SPECIFICATIONS AND LIGHT CONTROL

The materials to make Kensington Woven Woods have unique variations in both color and texture. The size and shape of the slats, reeds and grasses will affect spacing from shade to shade. This variation is normal and does not represent a defect in the material.

Kensington Woven Woods alone will filter rather than block light. These shades will provide daylight privacy; however, for added night privacy, a liner upgrade is recommended. If a liner is chosen, you must specify your liner option on your order (please refer to price grids for pricing information). Please see your Kensington Woven Woods sample book for fabric swatches.

How to specify your liner:

1. Choose your liner: attached or operable
2. Choose your opacity: light filtering or room darkening
3. Choose your color option  
(This is the color that will be seen slightly through the fabric spacing):
  - Light filtering: choose from white or ivory
  - Room darkening: choose from white, ivory, black, or beige.

\*All liners are white to the outside

\*Black or beige liner options are great color coordinating liner options to make the liner almost invisible.

OPERABLE LINER SURCHARGE

Operable Liner .....Price with Room Darkening Liner surcharge to standard blind price, then add \$198.00

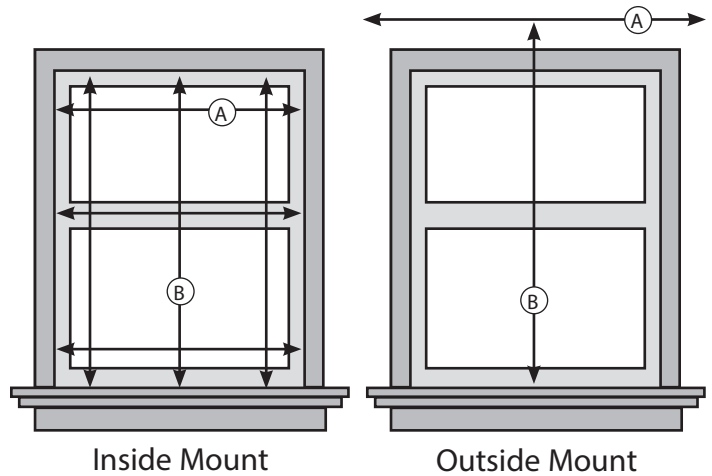

Operable Liners only availalbe with standarad control.

MEASURING INSTRUCTIONS

Accurate measurements are essential, for both correct pricing and proper fit. Use only a hard-edged ruler or steel tape, never a cloth tape. For inside mounts, width measurements (A) should be rounded down to the nearest 1/8" to prevent blind from rubbing against the window casing.

INSIDE MOUNT

Use a steel tape to measure the opening width (A) at three different places, and use the narrowest dimension when ordering. Be exact! The factory will make the shade 1/2" narrower so it will not rub against the window casing. Measure the height (B) of the window from the top (Soffit) down to the sill.

OUTSIDE MOUNT

Use a steel tape to measure the exact width (A) and height (B) of the area to be covered. It is recommended that the shades overlap the window by at least 1 1/2" on each side. When installation has no sill, allow the shade to overlap the bottom of the window casing by at least 1 1/2". Shade fabric will measure the exact width indicated on the order form.

- Universal stack.
- Hangs in gentle folds when in a stacked position.
- Hand Traversed.
- Magnetic clasp on split draws.
- Optional 6" Classic - see grids
- Optional Light Filtering or Room Darkening Liner- 25% Upcharge
- Split Draw** - Price as 2 individual unit- add together

**Stacking Chart:**

Width	Stack
36"	8.5"
48"	9.5"
60"	11"
72"	12"
84"	13"
96"	14"
108"	15.5"
120"	16.5"
132"	17.5"
144"	18.5"

**Product Specifications:**

- Flush ISM depth required: 6"
- Minimum ISM depth: 3"

**Inside Mount Deductions:**

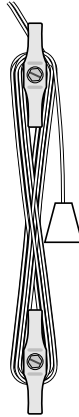

- Width: 1/4"
- Height: 1/2"
- Minimum Width: 12"
- Maximum Width: (single track) 144"
- Maximum Width with splice: 288"
- Minimum Height: 12"

Maximum Height:\*\* We railroad the woven wood material, therefore; Maximum height is dependant upon maximum fabric width.

## CHILD SAFETY

Be aware that it is possible for children to become entangled in window covering cords. To reduce the risk of accidents, all cords must be kept out of the reach of children. Cord cleats are an effective way to implement this essential precaution. Mount the cord cleat at a safe height, taking into account furniture or other objects upon which a child may climb.

After each use of the shade, simply wrap the excess cord around the cleat. Cord cleats are included with every Woven Wood shade that utilizes a pull cord.

For Woven Wood shades made with a clutch operating system the tension device included should be attached to the wall or floor. This can prevent children from pulling cords around their necks.

## LIFETIME LIMITED WARRANTY

Kensington Woven Woods will be free from unnatural defects in materials and workmanship for as long as the original purchaser owns the product, provided that the product was installed properly and in accordance with the Woven Wood installation instructions. This lifetime limited warranty is extended to the original purchaser only, in the original window for which it was intended.

This warranty does not include any conditions or damages resulting from accidents, alterations, misuse, abuse, or failure to follow printed instructions on installation, care and cleaning, or repairs. This warranty also does not apply to conditions resulting from normal wear and tear.

THIS WARRANTY IS EXCLUSIVE AND IN LIEU OF ALL OTHER OBLIGATIONS, LIABILITIES OR WARRANTIES. In no event shall the manufacturer of Kensington Woven Wood or its licensed fabricators or distributors be liable for INCIDENTAL OR CONSEQUENTIAL DAMAGES, or for any other damage, loss or expense, cost of fee associated with such damage. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation may not apply.

## CARING FOR SHADES

While beautiful and pleasing to the eye, the Kensington Woven Woods are also designed to be durable, easily cared for, and easily cleaned. Occasional dusting with a feather duster or low suction vacuuming with a brush attachment is all that is needed to keep the shade looking new.
